Abstract (en)
[origin: EP0123423A2] Detergent compositions are provided comprising a ternary surfactant system composed of anionic, ethoxylated nonionic and glyceryl monoesters of C8-C14 aliphatic acids together with a sequestering agent, the glyceryl monoester being present in an amount of at least 0.75% min of the compositions. Wash liquors containing the compositions and methods of their preparation including the addition of additive products containing one or more of the components to a wash liquor containing the remainder are also disclosed.
