Abstract (en)
Method of manufacturing a block mat comprising a carrying cloth (27) and blocks (5) made from concrete and fastened by means of nails (7) to said cloth, the blocks being manufactured with nail-receiving holes (14) in a given pattern, said blocks being disposed with the aid of setting members in a manner such that the blocks are all located in a given relative position, whilst at the same time the carrying cloth is moved into the correct position relative to the blocks after which the nails are inserted into the relevant holes.
