Abstract (en)
1. Drop pipe section having a wall area (8) with a circular profile which extends over the greater part of its circumference, has a corrugated design and is connected to a base (4) with a bottom area (5) and side wall sections (6, 7), having a muff joint (12) formed in one piece at one end and adapted to receive the free end of a corrugated pipe section (2), and having slit-shaped water openings (3) arranged in the corrugated section of the wall area, characterised in that the bottom area (5) of the base (4) and the corresponding bottom area (5') of the muff joint (12) are designed with a slightly convex curve.
