Abstract (en)
[origin: EP0126493A1] 1. Process for the manufacture of a tie, specifically using panel cutting, or with irregular distribution of the pattern over the length of the tie, such that from a piece of Jacquard material, diagonal to the length of the material, and using the width of the material, parts of a tie can be cut out and then sewn together, characterised by the fact that the tie pieces are cut out from a length of material 45 to 55 cm, wide.
