Abstract (en)

[origin: WO8402292A1] In a casing (1) shaped as a handle (2), are arranged a small electric motor (3) as well as batteries, respectively accumulator cells, which are its power source (4). The electric motor drives by means of a gear mechanism (5) the two cleaning tools (10) which are easily interchangeable and secured on the face of the casing (1). A brush (11) is provided to clean the outside, as well as a brush (12) to clean the inside of a tap, respectively the end portion of a pipe (13).
