Abstract (en)

[origin: EP0130598A2] This invention pertains to a method and apparatus to fabricate economical dentures for edentulous dental patients comprising attaching full arch unitary upper and lower sets of artificial teeth to denture base material and fabricated by a process developed for the purpose of utilizing these sets of teeth and converting them into finished upper and lower dentures by the use of a specialized apparatus comprising part of the invention. The process eliminates the conventional procedure of mounting individual artificial teeth in the normal process of fabricating dentures.
