Abstract (en)

[origin: US4534660A] The components of a mechanical watch are mounted inside a supporting structure comprising a stack of transparent plates made of corundum, spinel or quartz. Some of the plates are formed with cut-outs which define in the assembled structure housings for accommodating said components.

Abstract (fr)

Dispositif portatif tel qu'une montre mécanique dont les éléments constitutifs (30 à 64) sont montés à l'intérieur d'un bâtisupport constitué d'un empilement de plaques transparentes (12 à 26). en corindon, spinelle ou quartz. dont certaines présentent des découpes (66 à 98) qui permettent de loger lesdits éléments.
