Abstract (en)
[origin: EP0132466A1] A method of seaming together two or more pieces (10) (12) of fabric wherein the edges (11) (13) of the pieces of fabric are initially seamed together by one or more rows of ordinary chain stitches (16) (17) and thereafter the joined edges are oversewed by at least one pair of independent rows of oversew chain stitches (18) (19), one row of stitches of said pair being formed so that its loops (18a) are located on one side of the finished seam and the other row of stitches (19a) of said pair being formed so that its loops are located on the other side of the finished seam.
