Abstract (en)
[origin: EP0133517A2] 1. Double multipack for tub-shaped containers in particular, consisting of two wrap-around carry packs, each of which has a top panel and a support panel with holes for the containers that is parallel and connected to the top panel by side sections, wherein the top panel (2) of one of the carry packs has a connecting strip (4) and the support panel (11) of the same carry pack has at least one connecting tab (15) and wherein the double pack is formed by sealing or gluing both the connecting strip (4) to the top panel (2') of the other carry pack and the connecting tab (15) to the support panel (11') of the other carry pack.
