Abstract (en)
A plate bearing comprising two differently modelled pieces, one being formed by the movable disc (9) and it being possible for the second to be used as desired as base (2) or as riser (6), the base (2) and the riser (6) being identical. <IMAGE>

Abstract (fr)
Un plot de support de dalles comportant deux modèles de pièces différentes, l'une étant formée par le disque mobile (9) et la seconde pouvant être utilisée indifféremment comme embase (2) ou comme rehausse (6), l'embase (2) et la rehausse (6) étant identiques.
