Abstract (en)

1. A device for the manufacture of pressed profiled bodies coated at least on their undersides, which undersides extend horizontally within the area of the outer edge, from a non-ascending mixture, with said device consisting of an upper cold-pressing tool part (4) for manufacturing a rough pressed block, and of upper and lower hot-pressing surface of said lower cold-pressing tool part (4) as associated with said horizontally extending underside is bent upwardly compared to said horizontally extending underside within the area of said outer edge.

Abstract (de)

Es wird eine Presse zur Herstellung von gepreßten Profilkörpern aus einem Gemisch von Faserstoffen und einem wärmehärtenden Bindemittel vorgeschlagen, bei der das Unterteil (4) der Presse zur Herstellung des Vorpreßlings am äußeren Rand in anderer Weise ausgebildet ist als das Unterteil der Heißpresse.
