Abstract (en)  
[origin: EP0140079A1] 1. An installation system with intermediate plugs for mechanically lockable electrical connection of prefabricated leads each intermediate plug being essentially constituted by a flat body with connecting pins (3) at one of its ends and connecting sockets (4) at its other end and allowing additional outlet connections to be made, characterised in that at least one intermediate plug (1) fits into an opening (5) in an installation box (2) and exhibits flexible connecting leads (7) which are located between its connecting pins (3) and its connecting sockets (4) and are connected electrically with its leads connecting the connecting pins (3) to the connecting sockets (4).
