Abstract (en)
1. Pliers for holding and/or pinching off workpieces, comprising two hinge-connected metallic legs (11, 12) having abutting operating edges and including each a working portion (14) and a plastic-coated, bent handle portion (15), said legs consisting of a sheet metal of substantially constant thickness, and a spring (21) pressing apart the handle portions (15) and the legs (11, 12), characterized in that the spring (21) is mounted in recesses of the handle portions and is covered bilaterally by plates (22), that one plate (22) is integrally formed with the plastic of the one leg (11) while the other plate (22) is integrally formed with the plastic of the other leg (12) and that the extension of the plates (22) in transverse direction is such as to cover the spring (21) in each opening position of the pliers.

Abstract (de)
Die beiden Schenkel (11,12) der Zange bestehen jeweils aus einem nicht-schmiedbaren Blech von im wesentlichen konstanter Stärke. Die Griffteile (15) sind mit einem Kunststoffüberzug beschichtet. Die Griffteile (15) werden von einer Feder auseinandergedrückt. Die Arbeitsteile (14) sind mit einer harten Beschichtung versehen. Die beiden Schenkel (11,12) sind durch ein Gelenk (13) miteinander verbunden.
