Abstract (en)  
Web of labels consisting of a web of carrier material (1) with self-adhesive labels spaced apart thereon, each of which is cut out by a peripheral cut from a web of label material (2) adhering (3) to the web of carrier material (1), said peripheral cut consisting of two different parts, one of which extends only through the label material (2) and the other through the label material (2) and carrier material (1), whereby an intermediate cut (f) extending to the divisions between the two parts of the peripheral cut extends only through the carrier material (1), and another intermediate cut (d) parallel thereto extends only through the label material (2), in such a manner that two connected label parts are formed, while the distance between the intermediate cuts (f,d) amounts to a few millimetres.
