Abstract (en)  
[origin: US4646938A] Cigarette magazine consisting of several shafts (12), in each of which cigarettes are supported in rows on top of one another so as to be pushed out in groups from a rest at the lower end of the shafts (12). To prevent the following cigarettes from becoming jammed after a group of cigarettes has been pushed out, there is a supporting bar on which the cigarettes are temporarily supported during their downward movement. The supporting bar is subsequently lowered from its supporting position, so that the following cigarettes finally sit properly aligned on the lower rest prior to the pushing out of another group.

Abstract (de)  
Zigaretten-Magazine bestehend aus mehreren (Gruppen von) Schächten (12), in denen jeweils Zigaretten in Reihen übereinander gelagert sind, um am unteren Ende der Schächte (12) gruppenweise ausgeschoben zu werden. Um zu vermeiden, daß nach dem Ausschub einer Gruppe von Zigaretten die Nachfallenden verklemmen, ist ein Stützorgan (Tragstange 26) vorgesehen, auf dem die Zigaretten während der Abwärtsbewegung zeitweilig aufliegen. Das Tragorgan wird danach außer Stützposition gebracht, so daß die nachfallenden Zigaretten schließlich ausgerichtet auf einer unteren Auflage ruhen.
