Abstract (en)
[origin: WO8500408A1] Device for purifying gaz of electrically conducting particles, particularly device for purifying exhaust gas of fossil fuels. The device comprises two high voltage electrodes (12, 13) which are electrically isolated from each other since the gas to be purified are supplied by a closed channel (14).

Abstract (fr)
Installation pour purifier des gaz de particules électriquement conductrices, en particulier installation de purification des gaz d'échappement de combustibles fossiles. L'installation possède deux électrodes (12, 13) à haute tension, qui sont isolées électriquement l'une de l'autre par le fait que les gaz à purifier sont amenés par un canal fermé (14).
