Abstract (en)

[origin: US4572758A] A straw attachment apparatus for attaching drinking straws to beverage containers. A carrier member has a first and a second surface. The carrier member supports a plurality of straws in substantially parallel alignment with each other on the first surface of the carrier. An adhesive is secured to the second surface of the carrier member and a container assembly supplies a plurality of beverage containers into registry with the adhesive on the second surface of the carrier member so that the straws are adhesively secured to the beverage containers.
