Abstract (en)

[origin: US4644728A] The securing element (16) for tensionally fastening additions like roof balustrades (14), exterior stairways (15), roofs (11), arbors, greenhouses (13), pergolas (12), advertising elements, poster walls, etc. that function as extensions or expansions, to structures, especially single-story structures erected with a kit of components. The securing element (16) extends over the total length of one side of the main structure (10) and has at least one fastening rail (22 or 23) that extends over its own total length.
