Abstract (en)
[origin: EP0149703A2] 1. Fin stabilised sub-calibre anti-tank projectile with a number of active parts which before reaching a target are separated from one another so that they hit the target in succession. characterized by the fact that the projectile (10) comprises a front active part (11) and a rear active part (12) which have zones of the same diameter, the first active part (11) resting on a neck-part (14) of the rear active part (12) through a tubular element (13, 24).
