Abstract (en)
[origin: EP0153917A2] Assembly of the deck and of the base of a pallet comprising a spacing piece holding the deck at the desired distance from the base, the spacing piece comprising at least one passage which passes right through it for the elements for fixing the deck to the base and for any reinforcing elements, characterised by male closure elements (5, 6) closing off the said passage, one at the deck-side end, the other at the base-side end, locking means being provided in order to lock the said male elements in the passage (2) of the spacing piece. <IMAGE>
