Abstract (en)

[origin: WO8501655A1] Process for producing skin care preparations, such as medicinal preparations, particularly preparations which have an anti-inflammatory activity, by adding to the conventional carrier elements and/or other additives of skin care preparations parts of tissues or living plant cells, particularly algae cells to be used as active elements.

Abstract (fr)

Procédé de fabrication de préparations de soins de la peau, comme des préparations médicinales, en particulier des préparations qui ont une action anti-inflammatoire, en ajoutant aux éléments porteurs habituels et/ou aux autres additifs des préparations de soins de la peau des parties de tissus ou des cellules végétales vivantes, en particulier des cellules d'algues, pour servir d'éléments actifs.
