Abstract (en)

[origin: US4660261A] The invention relates to a process for giving relief in several directions to a textile cloth, characterized in that it consists: in known manner, in winding this cloth on a support tube, then in withdrawing said tube, thereafter in compressing the roll longitudinally along the axis of said support, finally, in fixing the roll thus compressed. The invention is more particularly applicable to fabric for home furnishings or clothes.

Abstract (fr)

Procédé pour donner du relief dans plusieurs directions à une étoffe textile, caractérisé en ce qu'il consiste : - de manière connue, à entouler cette étoffe sur un tube support ; - puis, à retirer ledit support ; - ensuite, à comprimer l'enroulement longitudinalement selon l'axe dudit support ; - enfin, à fixer l'enroulement ainsi comprimé. Application : tissu d'ameublement ou habillement.
