Abstract (en)
[origin: EP0161392A1] 1. Mattress with a soft, elastic support and with a covering containing strips (4), whose ends rest on elastic bearing elements, over said strips (4) is placed a foam support (6) and the covering (8) covers the foam support (6), the strips (4) and the bearing elements and joins same to form a unit, characterized in that the bearing elements are two tubes (2, 3) arranged on both longitudinal sides of the mattress and extending in the longitudinal direction thereof, which are mounted in a frame (1), the complete structure being covered by the covering (8), so that the mattress is constructed as a self-supporting unit.
