Abstract (en)  
[origin: EP0162740A1] 1. Removable support for a temporary signalling panel including a base with two clamping legs (14, 15), one at least of which (14) is movably mounted with adjustable positioning opposite the other, for fixing said support on a safety slide, characterized in that one leg (14) is mounted for pivoting with respect to the base and in that a stop (18) cooperating with said leg is forced to move inside said base along said leg, for causing this latter to pivot towards the other leg.
