Abstract (en)
[origin: EP0163047A2] 1. Electrofilter having plate- or tube-like collecting electrodes (5) and toothed discharge electrodes (6) centrally arranged, characterized in that the ratio of the distance (r) of the discharge tips (1, 2, 3, 4) from the central axis in case of tube-like discharge electrodes (5) or of the distance (r) of the discharge tips from the central plane between plate-like discharge electrodes (5) to the distance (R) of the central plane or the central axis from the walls (5) of the respective discharge electrodes is lying between 0,4 and 0,6.
