Abstract (en)

A hinge (1) consists of extruded aluminium section channel members (2, 3) each with a first channel (8) to receive the edge of a panel (6,7) and a second channel (9) to receive one end of an extruded nylon section linking member (4). The linking member (4) has a hollow bulbous portion (13, 14) at each end, the bulbous portions (13, 14) being a snap fit in the channels (9). A door stop member (21) can alternatively be fitted into the second channel (9).
