Abstract (en)
[origin: EP0164632A2] In order to improve the envelopment of an arc extinguishing laminate stack, the envelope (26) is designed such that the side walls (19) of the U-shaped envelope project on both sides into a front, that is towards the contact point (12), region of the extinguishing laminate stack (17), while, on the other hand, the side walls and the terminating web or the terminating wall (30) are designed to be lower than the front region, specifically preferably such that the opposing or upper and lower edges of the side wall (19) terminate flush with the opposingly located outer surfaces of the arc extinguishing laminate stack (17). <IMAGE>
