Abstract (en)
[origin: EP0170634A2] Sectional modular sanitary ware comprises individual sanitary ware units such as a washbasin (10), bidet (11), lavatory (13) and bath (14) each provided with correspondingly shaped side walls, for example flat, having recesses or seatings (3) for receiving interconnection means in the form of dowels (4) to join the modular units (10, 11, 13, 14) together. The seatings (3) are positioned at a level which will be at the same horizontal level from the ground when the units are in position and the invention includes shelving units (12) likewise provided with correspondingly shaped faces with recesses (3) for receiving the dowels (4) to provide suitable spacing between the individual sanitary ware units.
