Abstract (en)
[origin: US4650714A] An ink jet recording sheet for overhead projection or blue copy comprising on a transparent or translucent support an ink-absorbing layer which is made by coating an organic solvent which contains a denatured polyethylene oxide being soluble in the organic solvent and having a water absorbing ability onto the transparent or translucent support. The ink jet recording sheet which results provides excellent ink drying ability and high optical density, and is excellent for overhead projection or blue copy.
