Abstract (en)

[origin: EP0177427A2] 1. A parallelepipedic packing case of corrugated cardboard or the like wherein the packing case body comprises in its lower part external longitudinal flaps (2) adjoining the longitudinal walls (1) and internal transverse flaps (4) adjoining the transverse walls (3), said flaps (2, 4) being disposed perpendicularly to the associated walls and being assembled together in such a way as to constitute a bottom or to hold a removable bottom, and wherein the base comprises parallel supports formed by sleeves (5) formed by independent elements provided with reinforcing elements, characterised in that said sleeves (5) are fixed on the internal transverse flaps (4), parallel to the transverse walls (3) and between the longitudinal flaps (2), and that said reinforcing elements are of a length which is equal to that of the transverse walls.
