Abstract (en)
[origin: WO8504679A1] Contact lenses and other lenses are tinted in any predetermined pattern without masking any portions of the lens by forming the pattern before applying it to the lens. Preferably the colorant is formed into the pattern on a printing pad or equivalent means.

Abstract (fr)
Des verres de contact et d'autres lentilles sont colorés selon n'importe quel motif prédéterminé sans masquage d'une partie quelconque de la lentille en formant le motif avant de l'appliquer sur la lentille. De préférence, le colorant prend la forme du motif sur un coussinet d'impression ou un organe équivalent.
