Abstract (en)
[origin: EP0179499A2] The removable advertising panel is intended for affixing to a wall, e.g. the rear wall of a transport container. A screen (2) can be rolled off a winding core (1;6) and has fixing elements at both ends which permit securing the screen to the wall pref. using the twist lock holes (8) at the corners of a standard container. The roll (3) may be arranged at the lower end or the upper end of the wall and may be contained in a tube. The screen may be rolled upwards using a stick (15) engaging a bore (14) in a lip (13) on a cross bar (11) at the upper end of the screen.
