Abstract (en)
Mainly cylindrical package having two closed head-ends, one head-end being provided with a stacking rim(11,17), the inner dimensions of which are corresponding with the outer dimensions of the cylindrical part of the package, at least one closed weakening line(1,18) being provided near the head-end having the stacking rim(11,17). After breaking the weakening line(1,18) said head-end with the stacking rim(11,17) may be turned over and used as a lid for reclosing the package.
