Abstract (en)

[origin: EP0183030A1] 1. A device for securing snow guards, duckboards, ladders or steps, roof hooks, plant boxes and the like (9; 9') on roofs covered with tiles or pantiles, having a stable support (7; 7'), the base of which can be secured to a board (6) between the rafters (1), characterised in that the support (7; 7') has an adjusting means (10, 11) adaptable to the roof pitch, in that the support (7; 7') passes through a vent tile (4) in the form of a roof tile (3) with an opening at the upper end of its frustoconical projection, and in that a flexible sleeve (8) seals the gap between the support (7) and the vent tile (4).
