Abstract (en)

[origin: US4665569A] Protective helmets for work and sport. Each helmet has a base part to which a chin guard and two top parts are connected by sutures to form a flexible assembly which is capable of damping and absorbing shocks which would otherwise be transmitted to a head protected by the helmet. The sutures follow the sutures of the human skull which maximizes the protection afforded by the helmet.

Abstract (fr)

a) L'invention concerne un casque de protection sportif ou professionnel. b) Casque caractérisé en ce qu'il est constitué de plusieurs parties (9, 10, 11) réunies entre elles par des sutures (6, 7, 8) reproduisant pour l'essentiel des équivalents des sutures des os du crâne. c) La présente invention trouve son application principale dans l'industrie des équipements de sécurité.
