Abstract (en)  
[origin: EP0184742A2] 1. Dispenser for the portioned individual dispensing of tablets (1), pastes or the like, with a tube housing (2) which at one end has a dispensing opening (6) and, opposite this, is equipped with a movable pressure plate (13) for the transport of the product to be dispensed in the direction of the dispensing opening (6), which pressure plate (13), by means of an operating handle (9) which is adjacent to the dispensing opening and connected with rods to the pressure plate, is displaceable by steps in the direction of the dispensing opening, characterized in that the rod connection (11) between the operating handle (9) and the pressure plate (13) runs on the internal surface of the tube housing wall (W), leaving the internal space of the tube housing (2) free.
