Abstract (en)
[origin: WO8600203A1] Container for cosmetic products in stick form, particularly for lipsticks, on which a closure cap (4) is arranged, comprising at least three functional elements: an outer body (2), an inner body or stick support plate (3) and an outer intermediate body (1) which is concentric with respect to the inner body, the outer body (2) and the intermediate body (1) being axially integral with each other and rotatable in opposite directions, while the intermediate body (1) is preferably comprised of two parts, the part to be placed in the outer body having an outer diameter equal to the inner diameter of the outer body and the part projecting from the outer body having a diameter preferably equal to the outer diameter of the outer body, characterized in that the gap between the horizontal top plane (10) and the end plane of the intermediary body (1), and therefore the visible height of the intermediate body (1), when the container is ready to be used, is comprised between 3 and 20 mm.
