Abstract (en)

[origin: US4693183A] A track system for a passenger-accommodating vehicle as a part of a rollercoaster comprising tracks which form an acceleration stretch, a rollover stretch consisting of several sections in which the vehicle is rotated around its lateral axis, two helical stretches in which the vehicle is rotated around its longitudinal axis, and a coasting stretch. The individual sections of the rollover stretches and the two helical stretches are arranged such that the form of the digit "Eight" results in a vertical projection of the track system.
