Abstract (en)
[origin: WO8505541A1] The drawer has a front plate (3) provided with a recess in its upper edge area. Said recess is configured in such a way that the front plate (3) is comprised of a rectangular plate (5) made of wooden or plastic material and of two profiled parts (6) which are secured in the upper corner area of the plate (5) and comprising an upright (6a) seizing the respective corner and another upwardly projecting upright (6b). To the upwardly projecting uprights (6b) of the profiled parts (6) there is secured an upper strut (4) which is also secured to the rear wall (2) of the drawer.
