Abstract (en)
In a thermal switch, a plurality of circular bimetallic discs (9 - 15) in the form of plate springs are arranged stacked one above the other. This packet of bimetallic discs (9 - 15) abuts against a movable piston (21) which can move a contact arm (6) of a switching device (2) into a closed position of the switch, by means of a ram (25). <IMAGE>

Abstract (de)
In einem Temperaturschalter sind mehrere kreisförmige Bimetall-Scheiben (9 - 15) tellerfederartig übereinander gestapelt angeordnet. Dieses Paket aus Bimetal-Scheiben (9-15) liegt gegen einen verschieblichen Kolben (21) an, der mittels eines Stoßbels (25) einen Kontaktarm (6) einer Schaltvorrichtung (2) bis in eine Schalterschließstellung zu bewegen vermag.
