Abstract (en)

[origin: EP0187900A2] A pilotless aircraft, such as a combat drone (1), provided with charges (6 to 11) forming projectiles, is provided for the effective and cost-effective engagement of armoured units. Targets which are located in the detection corridor (16) of the drone (1) are engaged one after the other, targets being engaged by ejectable or directly fuzible charges (6 to 11) corresponding to the number of charges (6 to 11). <IMAGE>
