Abstract (en)
[origin: WO8600594A1] Installation for filling flexible containers (8) with bulk materials, comprising a weighing apparatus (1) mounted in the upper area of a vertical frame (20) or secured to a suspended frame, upper support devices (5) hanging from the load suspension (2) of the weighing apparatus in order to suspend the bulk material flexible container in an upper area thereof, lower support devices (7) hanging from the load suspension of the weighing apparatus in order to support from underneath the bulk material flexible container, an elevator device (3) arranged on the load suspension of the weighing apparatus for the upper and lower support devices in order to displace them between a position wherein the lower support devices touch the bottom and a position wherein the lower support devices are lifted from the bottom, as well as a filling pipe (12) arranged on the load suspension of the weighing apparatus in order to fill from the top the bulk material flexible container.
