Abstract (en)
[origin: EP0188642A1] 1. Plug connection for electrical cable systems with a coupling element or plug housing (12, 30) for receiving one or more cables or conductors (26), which are each provided at their outer ends with a contact part, which is received together with a part of cable in a bore (18) provided in the coupling element or plug housing (12, 30) and is fixed by means of an adhesive mass (46) in the bore (18), characterized in that at least a part of the cable is stuck in the bore (18) by means of a thixotropic adhesive (46) and by movement of the cable or the coupling element (12) or the plug housing (30) and the adhesive surrounding the cable the penetration depth of the adhesive into the bore (18) is determined.
