Abstract (en)
[origin: WO8505328A1] The cast wheel (2) comprises on one hand in its radially and axially outer edge area a smooth front surface (21) extending substantially radially and, on the other hand, in that area, behind the front surface (21), recesses (24) in the cast wheel body which are configured as pockets (24) separated by radial ribs (27).

Abstract (fr)
La roue coulée de véhicule à moteur (2) comporte d'une part, dans sa zone de bord radialement et axialement extérieure, une surface frontale (21) lisse et s'étendant essentiellement radialement et d'autre part, dans cette zone, derrière la surface frontale (21), des évidements (24) dans le corps de roue coulée qui ont la forme de poches (24) séparées par des nervures radiales (27).
