Abstract (en)

[origin: EP0190445A1] 1. Drawing head for drafting machines, drawing plates and drawing boards with a locking device fixing the drawing square in various preferred angular positions with respect to the base plate, characterized in that a slot (10) is provided in the base plate (8) in which slot the mounting pivot (11) of the drawing square (1, 3) is guided and that a projection (17) arranged on the bottom of the base plate (8) engages in corresponding recesses (13) in the drawing square (1, 3), the direction in which the slot extends pointing to the projection.
