Abstract (en)
[origin: EP0190880A2] A laundry product comprising: (a) a laundry composition in particulate form comprising a first particulate component incorporating a meso-phase forming organic surfactant and a second particulate component incorporating a water-soluble or water-dispersible inorganic or organic builder and which is essentially free of meso-phase forming organic surfactant, the laundry composition being releasably contained within; (b) a water-permeable pouch or multi-pouch delivery system. The laundry products have excellent product dissolution characteristics in typical cool water wash cycles.
