Abstract (en)  
1. Partition (10) for showers, including a light metal profile frame (12) having vertical side stops (16), especially uprights, as well as horizontal top and bottom guide rails (14, 14'), including three shiftable door panels (18, 20, 22) each of which has a framed translucent area (24) and which are interarticulated so as to be foldable, and further including sealing components (56, 60, 70, etc.) at the profile frame and at the door panels, wherein the three door panels (18, 20, 22) are arranged to be shiftable and foldable between the vertical side stops (16) to either side thereof, the middle door panel (20) being connected to one outer door panel (e.g. 22) by an articulation (30) and to the other outer door panel (18) by a slidable articulation (28), and wherein the middle door panel (20) comprises in its upper frame profile (26) a guiding groove (36) for the slidable articulation (28).
