Abstract (en)  
[origin: EP0191903A1] 1. Electrical primer or igniter containing a pyrotechnic priming or igniter charge in an essentially tubular insulating body and two electrodes which are bridged by a detonation bridge or by the electrically conductive region of the priming or igniter charge joining it, characterized in that the electrodes (6, 7) extend at the inside of the tubular insulating body (1) right up to the region of the priming or igniter charge (5).
