Abstract (en)
[origin: EP0192545A2] 1. Dispenser for rolls of strip material, designed in particular for toilet paper rolls, formed by a casing (1) provided with a vertical rear wall (2) whose distribution opening (5) is provided in a lateral wall (4) perpendicular to this wall (2), a first fixed, horizontal core-holder in the form of a spindle (6) mounted on the vertical wall at a height above the opening and a second core-holder (10) parallel to the first, characterized in that the second core-holder (10) is mounted on a rod (11) movable about a fixed, horizontal shaft (12) disposed at a height above the spindle (6) and on the other side of the vertical plane passing through the axis of the spindle (6) with respect to the second core-holder, the rod (11) being, in part, at a distance from the wall (2) which is greater than the length of the spindle (6), the shaft (12) - spindle (6) distance being smaller than the shaft (12) - second core-holder (10) distance such that the second core-holder (10) can be displaced between two end positions, one above the spindle (6) and the other between the spindle (6) and the opening (5).
