Abstract (en)
1. Assembly of elements to reproduce natural ground shapes or to create them effected starting from a plurality of arched shaped prefabricated elements which can be coupled together and then assembled one to another and comprising, on their edges, means permitting them to be fixed to one another and to the ground, characterized in that it is constituted only from three types of arched elements which are : - a curved arched element (1) which can be inscribed in the interior of an eighth of a sphere ; - a first quadrangular arched element (2), the plane projection of which is a parallelogram ; and - a second quadrangular arched element (3), the plane projection of which is a trapezium, the said quadrangular arched elements (2, 3) having a ridge line L projecting on to a median line I on their plane projection and having a line of greatest inclination AA' of the same shape on the one and other side from the ridge line L.

Abstract (fr)
Ensemble d'éléments pour reproduire des mouvements de terrain naturels ou en créer. Cet ensemble comprend un élément cintré courbe (1) dont la projection plane est un secteur circulaire, un premier élément cintré quadrangulaire (2) dont la projection plane est un parallélogramme et un second élément cintré quadrangulaire (3) dont la projection plane est un trapèze, lesdits éléments comportant sur leurs bords des moyens permettant de les fixer entre eux et sur le sol. Application notamment à l'aménagement de terrains de jeux.
